

# Parasite

Hadouken!

No longer one, not symbiotic  
It's all I have  
I give you everything  
Take what you want, then neutralize it  
It's all I have  
I give you everything  
Take all you want from me  
Take all you need from me  
I took a step back, now I realise  
I'm being consumed by a parasite!

Half for me, is half for you  
Half of me, is half of you  
Take all you want from me  
Take all you need from me  
Fool my eyes, then I realise  
I'm being consumed by a parasite!

But I won't fall this time  
And that's the thing  
You won't get everything  
You sapped my life  
But I won't fall this time  
This parasite, it's still alive!

Oh!  
This parasite, it's still alive!

But I won't fall this time  
And that's the thing  
You won't get everything  
You sapped my life  
But I won't fall this time  
This parasite, it's still alive!

It's before my eyes when I realize  
I'm being consumed by a parasite!

But I won't fall this time  
And that's the thing  
You won't get everything  
You sapped my life  
But I won't fall this time  
This parasite, it's still alive!

A parasite!

Take all you want from me  
Take all you need from me  
This parasite, it's still alive!
