Decom-Posers

Haemorrhage

Six feet down rot sets in Putrefactive bacteria (Grows) under the marbled skin Acid liquid liquids and enzimes are released Self maceration by stale corpse fluids

Deteriorated corpse... by necrosis Rebellious mass of grubs... Decom-poser!!! Swarming maggots-spoiling the dead Hungry insects worm-eaten brain

Molten innards-fermented juices Rancid carrion-munched into pulp Sarco-blasters, larval plague Maggots buzzing into the grave

Ashes to ashes, flesh to dust Cadaver's turned into a pile of grubs!!! Deteriorated corpse... by necrosis Rebellious mass of grubs... Decom-poser!!!
