Hypochondriac

Haemorrhage

Chronical aches fictitious pains - unprobed legions Parasited by endemic fears - contagion panic

Under the septic siege ...immunological risks Perpetual quarantine ...i live in sickness

Self medicated pharmacoadict - Toxic Placebo Over prophylaxed and disinfected - Sterile Methods

The horror of disease ... Diagnostic quandary Bizarre pathologies... Addict to sickness

Hypochondriac ... Envious of the sick Hypochondriac ... Obsessed by Disease
