

Little of Your Love

HAIM

You were just another recovering heart
I wasn't even gonna try
You weren't even worth my time
Could be so easy, you make it hard
Don't think about love too much
My love is gonna be enough
You're so close now
And I know now

You gotta give me just a little of your love, baby
[And I'll?] [Ain't gotta?] try
You gotta give me just a little of your love, baby
[?] try
You gotta give me just a little of your love, baby
[?] try
You gotta give me just a little of you love, give me just a little of your love

Don't it feel like that night was from a dream
(Ooh, ooh, ooh)
I've never felt nothing like that
Looking at you, looking right back
You say nothing is ever as good as it seems
(Ooh, ooh, ooh)
Stop running your mouth again
Cuz' you know I'm gonna give it right back
