

# Running If You Call My Name

HAIM

I went back to our room  
And every memory came rushing back to soon  
As I packed my bags and I lied down  
I felt the bed sink in and the covers surround, I let go  
Cause with my eyes closed I see the door open wide  
And with my eyes closed I'm leaving it all behind

I, oh, I'll run away if you call my name  
And I, I'll keep running if you come my way  
I, oh, I'll run away if you call my name  
And I, I'll keep running if you come my way  
When you come my way  
I'll keep running if you come my way

I jumped back in a daze  
I saw the face of someone slowly slip away  
And he had your eyes, it's too bright  
And now I'm slipping through the white  
Bringing me into cold dark night  
And with my eyes closed I see the door open wide

I, oh, I run away if you call my name  
And I, I'll keep running if you come my way  
And I, I run away if you call my name  
And I, I'll keep running if you come my way  
When you come my way

I'll keep running if you come my way  
And with my eyes closed I see the door open wide  
(I'll keep running if you come my way)  
And with my eyes closed I see the door open wide  
(I'll keep running if you come my way)  
And with my eyes closed I'm leaving it all behind

I, oh, I run away if you call my name  
And I, I'll keep running if you come my way  
And I, I'll run away if you call my name  
And I, I'll keep running if you come my way  
When you come my way

Keep keep running if you call my name  
I'll keep running if you call my name  
I'll keep running if you call my name  
call my name  
when you call my name
