How about the time when I'm feeling there?
Feathers in science time, take
Take that bean down, feather's yeah
Dig it in to me, be sensible, weathers in science time
Be ten only, how about waiting time see you on my range

Cry big into, be beneath the rays don't bring down

Being only ten, is when life begins to grin
Being only ten is when life begins to grin
Being only ten is when life begins to ring
