

## Bent Down

Hale

My conscience is hurting my ear  
But I'm happy as long as you are here  
I hide if I can  
I don't care where I stand  
As long as you are bent down  
You never said what does it mean  
I'm speaking the same words again  
But I will if you have to fall  
I'm here if you want me at all  
Just as long as you are bent down  
She feels I'm laid out for everything here  
She keeps me away from this song of mine  
I don't know why this won't stop  
Cause maybe it just won't stop  
But it will if I hear you call  
But maybe you don't care at all  
But at least you're the one bent down  
She feels I'm laid out for everything here  
She keeps me away from this song of mine  
You could be here  
Or you can be here  
As close as I can hold  
Together as were told  
We were the ones bent down
