

Eyes Wide Shut

Hale

Eyes wide shut, stuck conscious
I can't sleep 'cause I'm with you
I can feel your skin go through my soul
While yours is somewhere else
But you, you never saw me there with you
No you don't have a clue
Eyes wide shut, action cut
I can't sleep 'cause I'm with you
I can feel your skin go through my soul
While yours is somewhere else
But you, you never saw me there with you
No you don't have a clue
All I have is all I need but all you want is all I'm not
And you can't see that all I'll be is someone who just loves yo
u when you're there
All eyes can see through
May you bet things can't go wrong while you're with me
But I lie
**
All I have is all I need but all you want is all I'm not
And you can't see that all I'll be is someone who just loves yo
u when you're there
