

# Tell Me Where It Hurts

Halestorm

Hey did you know you're making eyes with a murderer?  
Hey did you know you're swapping lies with a dirty girl?  
In order for me to play your nurse,  
Your gonna have to tell me where it hurts.

Hey did you know you're locking lips with a libertine?  
Hey did you know you're knocking hips with a killer queen?  
Another victim of my method of seduction,  
I made 'ya look, but ya never saw me comin!

Come on and give it to me  
Dare you to give it to me  
Give it your best shot  
My love is black and blue

Come on and give it to me  
Dare you to give it to me  
Give it your best shot  
Give me your best shot

Tell me where it hurts  
(Tell me when you hurt)  
Cry baby cry  
(Cry baby for me)

Tell me where it hurts  
(Tell me when you hurt)  
Cry baby cry  
(Cry baby for me)

Hey did you know I'm the spider and you're the fly?  
Hey did you know you've got your eyes on a suicide prize?  
With a flick of my wrist I'll twist your words around,  
You think you're the ace but whose got the upper hand now?

Come on and give it to me  
Dare you to give it to me  
Give it your best shot  
My love is black and blue

Come on and give it to me  
Dare you to give it to me  
Give it your best shot  
Give me your best shot

Tell me where it hurts  
(Tell me when you hurt)  
Cry baby cry  
(Cry baby for me)

Tell me where it hurts  
(Tell me when you hurt)  
Cry baby cry  
(Cry baby for me)

Come on and give it to me  
Dare you to give it to me

Give it your best shot  
My love is black and blue

Come on and give it to me  
Dare you to give it to me  
Give it your best shot  
Give me your best shot

Tell me where it hurts  
(Tell me when you hurt)  
Cry baby cry  
(Cry baby for me)
