

# Vicious

Halestorm

You make me vicious  
Watch as I make the pain my mistress  
You can call me miss malicious  
I'll dress you up in stitches  
No I cannot resist this  
If it don't hurt I get suspicious  
I like to take the knife and twist it  
Yea my love is sacreligious  
I'm not scared to admit it  
This violence is delicious

What doesn't kill me makes me vicious  
I'm not gonna break, I can take  
All that you can give  
This is survival of the sickest  
I am not afraid - bring the pain  
Watch out cuz I'm vicious

And I'm not asking for forgiveness  
Yea I'll make you go ballistic  
Your torture is my business  
And I won't leave a witness  
I don't care if you hate me  
And there's no use in crying  
You know I would be lying  
If I said you could escape me

What doesn't kill me makes me vicious  
I'm not gonna break, I can take  
All that you can give  
This is survival of the sickest  
I am not afraid - bring the pain  
What doesn't kill me makes me vicious

Vicious  
Vicious  
Vicious  
Vicious

What doesn't kill me makes me vicious  
I'm not gonna break, I can take  
All that you can give  
This is survival of the sickest  
I am not afraid - bring the pain  
What doesn't kill me makes me vicious  
What doesn't kill me makes me vicious  
What doesn't kill me makes me vicious  
What doesn't kill me makes me vicious  
Oh
