

# Devilish Man

Haley Bonar

I fell in love with a devilish man

He was the only man I knew

I fell in love with a devilish man

He was the only man I knew

And he took me to the river and showed me to the water so blue

Charles' winter, Charles' winter was the only light I saw

Charles' winter, Charles' winter was the only light I saw

And he took me to the river and showed me to the devils jaw

But happiness is in the cold black dirt

Oh happiness is in the cold black dirt

So take your man and hike up that skirt, girls, and show him to the water so  
blue

I fell in love with a devilish man

He was the only man I knew

I fell in love with a devilish man

He was the only man I knew

And he took me to the river and showed me to the water so blue

Oh happiness is in the cold black dirt

Oh happiness is in the cold black dirt

So take your man and hike up that skirt, girls, and show him to the water so  
blue

Oh happiness

Oh happiness

Oh happiness

Oh happiness

Oh happiness is in the water

So happiness is in the water

So happiness is in the water so blue
