

Something Great

Haley Bonar

you've been talking about something great
but you don't really know what you're saying
i guess that goes without to say
you don't really know what you're paying for

it's in the way
it's in the way you see
it's in the way
it's in the way you see
me

my mother told me this yesterday
girls like me only get to somewhere
it's not really much of things you say
but how you look at them
and who does your hair

the skin you taste
the kids you face baby
the skin you taste might take your place, baby

you've been talking about something great
but you don't really know what you're saying
i guess that goes without to say
you don't really know what you're paying for

what you're paying for
what you're paying for
