

# Better

Haley Reinhart

Now I'm right where I wanna be  
Out on the road, back to the 818  
Back to the place where I can breathe  
Where it just feels better  
You think you treated me like a queen  
But I don't feel like no royalty  
Well, things are finally clear to see  
You want forever, I'm thinking never, never

I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better now  
I watch it sink, and now I'm floating  
Now I'm feeling better  
Feeling better, feeling better now  
So long, I felt so weighed down  
Anchors away now, I'm finally letting go  
I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better now  
Better, better

Just because you're lookin' fine  
Baby, that won't keep me satisfied  
You wear that smile like a disguise  
But I just need something better  
Jump down off your pedestal  
Not even you could have it all  
Don't drive by, please don't call  
When I say never, I mean forever

I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better now  
I watch it sink, and now I'm floating  
Now I'm feeling better  
Feeling better, feeling better now  
So long, I felt so weighed down  
Anchors away now, I'm finally letting go  
I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better now  
Better, better, better  
better, better, better

I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better  
I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better now  
I watched it sink and now I'm floating  
Now I'm feeling better  
Feeling better, feeling better now  
I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better, feeling better

I threw your ring into the ocean  
Now I'm feeling better  
Feeling better, feeling better
