

# Spiderweb

Haley Reinhart

Open your eyes  
Chandeliers are going to light the way  
Take a step inside the masquerade  
I know that it's late  
But we're just getting started here  
Soon the mystery will all be clear

I'll give you a taste  
One drop will erase  
All your defenses

Come in just a little bit closer now  
You know that you want me ta take you down  
I'm the thrill that you can't escape  
There's no way out  
So don't you forget, you're caught my spiderweb

You think that you know  
What your body's getting into  
But nobody's here to save you  
It's been awhile  
Since I tapped into my appetite  
But the hunger's coming back tonight

The more that you fight  
The more that you're mine  
I'll keep you forever

Come in just a little bit closer now  
You know that you want me ta take you down  
I'm the thrill that you can't escape  
There's no way out  
So don't you forget, you're caught my spiderweb

You don't know it yet  
But you might regret  
The moment we met  
You're caught in my spiderweb  
You don't know it yet  
But you might regret  
The moment we met  
You're caught in my spiderweb  
You don't know it yet  
But you might regret  
The moment we met  
You're caught in my spiderweb

Come in just a little bit closer now  
You know that you want me ta take you down  
I'm the thrill that you can't escape  
There's no way out  
So don't you forget, there's no way out of this  
You're caught my spiderweb
