

Devil May Care

Half Moon Run

You was always saying that the devil may care
That you're lost and can't be found
But now you've got to thinking we'll drive the coast from town
to town
You keep trying to leave, but the car keeps breaking down

You was always sleeping like the day before noon cause you're l
iving on another one's time
Yet once again we let out at dawn to skip the warden's fine
I said "isn't that like stealing?"
You said "to steal is just to find"

Ooh you like to get to where you can't turn back
We should not be
Oh I believe that does it for you
But that does it for me

You was always saying that anything that happens is no worse th
an anything else
That every moment matters and that truth can be your wealth
Yes every moment good or bad in and of itself

You was always saying where you can't come from, they was hard
but they was right
Then someone had an accident we said oh what a pitiful sight
Said someone flipped a pickup truck and we heard that someone h
ad died

Ooh you like to get to where you can't turn back
But you should not be
Oh I believe that does it for you
But that does it for me

Ooh you like to get to where you can't turn back
But you should not be
And oh I believe that does it for you
But that does it for me
