

Golgotha

Halford

Golgotha, rise up from your tomb
Devil's had a taste of holy water
Lost children need your guiding hand
Take them through the fire of the promised land

Now we come together
We're all waiting for a sign
If it takes forever
We believe in the divine

Grand Canyon source of all our dreams
Protected from a billion years of evil
Golden fire thunder all around
Covenants will cover up you sinners

Now we come together
We're all waiting for a sign
If it takes forever
We believe in the divine

Overcoming tyranny to desecrate the entity
Satanical
Laying waste this sick disease
That crippled maimed feel to our knees
Like Jericho

Pile of skulls crunched under foot
Torched remains are crying out
Satanical
Rising up to purge and scourge
The killing of our paradise
Like Jericho

Salvation
Salvation

Now we come together
We're all waiting for a sign
If it takes forever
We believe in the divine
