

# Hell's Last Survivor

Halford

I cry from the madness  
Then reach for a hand  
Stay on the lifeline  
Till I understand

I watched my worlds collide  
And drive me underground  
I've been to Hell and back  
And beat the Devil down

I'm all I have  
I'm all I need  
The last survivor

I fought and won  
And now I'm free  
The last Survivor

I prayed for deliverance  
Grown from the guilt  
Lived from the bottom  
Destroyed what I built

I watched my worlds collide  
It drove me underground  
I've been to Hell and back  
And beat the Devil down

I'm all I have  
I'm all I need  
The last survivor

I fought and won  
And now I'm free  
The last Survivor

I will survive  
I will survive

I'm all I have  
I'm all I need  
The last survivor

I fought and won  
And now I'm free  
The last survivor
