Hell's Last Survivor

I cry from the madness Then reach for a hand Stay on the lifeline Till I understand

I watched my worlds collide And drive me underground I've been to Hell and back And beat the Devil down

I'm all I have I'm all I need The last survivor

I fought and won And now I'm free The last Survivor

I prayed for deliverance Grown from the guilt Lived from the bottom Destroyed what I built

I watched my worlds collide It drove me underground I've been to Hell and back And beat the Devil down

I'm all I have I'm all I need The last survivor

I fought and won And now I'm free The last Survivor

I will survive I will survive

I'm all I have I'm all I need The last survivor

I fought and won And now I'm free The last survivor Halford
