

# I Know We Stand A Chance

Halford

Tranquilized here by your touch  
You know I'll never get enough  
Everything you do to me  
Always sets me free

In me in you  
I know we stand a chance  
This time could be  
Could be our last romance

I find myself in you  
And I can't let you go  
In me in you

When you're far away from me  
All I have's uncertainty  
Bring me back with what you give  
You know you make me live

In me in you  
I know we stand a chance  
This time could be  
Could be our last romance

I find myself in you  
And I can't let you go  
In me in you

When you get inside my head  
I forget the things you said  
All that's left is just a dream  
All I do is scream

In me in you  
I knew we'd stand a chance  
This time could be  
Could be our last romance

I found myself in you  
And I can't let you go  
In me in you
