Light Comes Out Of Black

Halford

Innocence is calling
Raptures in the past
Craving for salvation of the mind

Serenity is calling Seeking only truth Vision block forever left behind

Light comes out of black Stand and face the fear Give him eye to eye Walk the walk right here

Images unraveling
Saw through the disguise
Crystal clear and shining through and through

Liberation traveling Bringing down the wall Universe waking coming through

Light comes out of black Stand and face the fear Give him eye to eye Walk the walk right here

Let the fight begin Watch the power soar Work the magic now Free forever more

Now feel the light
Lifting up and rising all alive
Now hold the light
Keep the faith inside and I'll survive

Innocence is calling
Raptures in the past
Craving for salvation of the mind

Serenity is calling Seeking only truth Vision block forever left behind

Light comes out of black Stand and face the fear Give him eye to eye Walk the walk right here

Let the fight begin Watch the power soar Work the magic now Free forever more
