

# Resurrection

Halford

I'm digging deep inside my soul  
To bring myself out of this God-damned hole  
I rid the demons from my heart  
And found the truth was with me from the start

Holy angel lift me from this burning hell  
Resurrection make me whole  
Son of Judas bring the saints to my revenge  
Resurrection bring me home

I walked alone into a Fight  
No longer standing in satanic light  
I tried to look too far ahead  
And saw the road go to my past instead

Holy angel lift me from this burning hell  
Resurrection make me whole  
Son of Judas bring the saints to my revenge  
Resurrection bring me home

I've faced the things I've said and done  
There is no bastard left to overcome  
The peace of mind I thought was lost  
Was right in front of me on paths I've crossed
