

Resurrection

Halford

I'm digging deep inside my soul
To bring myself out of this God-damned hole
I rid the demons from my heart
And found the truth was with me from the start

Holy angel lift me from this burning hell
Resurrection make me whole
Son of Judas bring the saints to my revenge
Resurrection bring me home

I walked alone into a Fight
No longer standing in satanic light
I tried to look too far ahead
And saw the road go to my past instead

Holy angel lift me from this burning hell
Resurrection make me whole
Son of Judas bring the saints to my revenge
Resurrection bring me home

I've faced the things I've said and done
There is no bastard left to overcome
The peace of mind I thought was lost
Was right in front of me on paths I've crossed
