Who can say they've never made mistakes Only fools will suffer what they make Owning up rids poison when you can Admitting you were wrong makes you a man

It's everywhere
But do you care?

Sad wings of destiny Where have they gone? I know eternally I'll carry on

Did you think that I would disappear? Were you so dried up from all your fear? Thought you'd make me feel impossible You were wrong now who looks like a fool?

It's up to you What did you do?

Sad wings of destiny
It used to burn
I know that faithfully
I'll see you turn

It's everywhere
But do you care?

Sad wings of destiny Where have they gone? I know eternally I'll carry on

Sad wings of destiny
It used to burn
I know that faithfully
I'll see you turn

Sad wings of destiny Sad wings of destiny
