

# Breathe

Halifax

I gave you everything  
I died to watch you smile  
You left me suffering  
Alone and in denial

Well, I can't save you now, there's no more doubt  
You show me how you're hollowed out  
And sympathy  
Just isn't in your nature

Get out of my life, get out of my head  
I know, I know that you won't make it  
Back from the dead, forget what I said  
I was so much better, yeah, I'm so much better

Breathe  
Steady lungs will guide you home  
You'll see  
The blood on me I've never shown

Just breathe  
Even when you're all alone  
I need  
For you to love me or to leave

Why aren't you answering?  
Haven't heard from you in awhile  
And it's so deafening  
The verdict of our trial

Let's make this quick, I know your trick  
You gotta commit, I'm sick of it  
'Cause honestly  
You feel like such a stranger

Get out of my life, get out of my head  
I know, I know that you won't make it  
Back from the dead, forget what I said  
I was so much better, yeah, I'm so much better

Breathe  
Steady lungs will guide you home  
You'll see  
The blood on me I've never shown

Just breathe  
Even when you're all alone  
I need  
For you to love me or to leave

I know this isn't reality  
And I can't believe that you've gotten to me  
And a price has been paid for the things we create  
I might bend but won't break, I'll accelerate  
I'm stronger everyday

Breathe

Steady lungs will guide you home  
You'll see  
The blood on me I've never shown

Just breathe  
Even when you're all alone  
I need  
For you to love me or to leave  
Love me or to leave
