

# Crime Pays

Hall & Oates

I know you know all the pros and cons  
They help you get to everything you want  
Greasing policemen bending all the rules  
Make them an offer that they can't refuse

One crime, baby, I can't forgive  
The kind that hurts where I live  
I'm a nice guy, I try to wait and see  
If you'll get caught or go free a

You stole my heart and left me blue  
It look like crime pays for you  
You do it and you get away  
It seem like crime pays  
(Crime pays)

Beat the heat no you couldn't pay me off  
You're staying cool no matter what it costs  
You get caught, you'll never do the time  
Ooh, I have to say you got a way

With one crime, baby, I can't forgive  
The kind that hurts where I live  
It's all too clear but I still don't see  
Why all the guilty go free

You stole my heart and left me blue  
It look like crime pays for you  
You do it and you get away  
It seem like crime pays  
(Crime pays)  
It seems like crime pays  
(Crime pays)

Catch a thief and let her go  
You won't get back the love she stole  
Ooh, shake her down but she don't mind  
'Cause she commit the perfect crime okay, okay

You know, I know you're a pro and con artiste  
Oh baby, you're a false alarm  
Why do I try to play it by the rules  
I was the victim but I'm not a fool

You stole my heart and left me blue  
It look like crime pays for you  
You do it and you get away  
It seems like crime pays  
(Crime pays)  
It seem like crime pays  
(Crime pays)

It seem like crime pays  
(Crime pays)  
It seem like crime pays  
(Crime pays)  
Ooh

(Crime pays)  
Crime pays  
(Crime pays)  
You stole my heart, yeah

(Crime pays)  
Ooh, ooh  
(Crime pays)

(You're gonna get away)  
Get away bad  
(You're gonna get away)  
Crime pays

(You're gonna get away)  
Get away bad  
(You're gonna get away)  
Crime pays

(You're gonna get away)  
Get away bad  
(You're gonna get away)  
Crime pays for you, you do me wrong girl

(You're gonna get away)  
Get away bad  
(You're gonna get away)  
Crime pays

(You're gonna get away)  
You stole my heart and left me blue  
(You're gonna get away)  
It look like crime pays for you

(You're gonna get away)  
You do it and you get away  
(You're gonna get away)  
It seem like crime pays
