

# Don't Blame It On Love

Hall & Oates

Mighty high or low down  
Turn around the words that they say  
Low is not the last one  
'Cause you know, if you know

You'd be learning from a hit lip  
Success is sitting fat and limp  
But don't blame it on the system  
It's only natural, it's only natural

You could blame it on yourself  
Blame it on me but don't blame it on love  
You could blame it on yourself  
Blame it on me but don't blame it on love

Who do ya think your heroes are?  
Failures everyone but you all  
Love them for their innocence  
When they fall when they fall

The loser's always defied  
Winner only takes home the prize  
But don't blame it on the system  
It's only natural, it's only natural

You could blame it on yourself  
Blame it on me but don't blame it on love  
You could blame it on yourself  
Blame it on me but don't blame it on love

You could blame it on yourself  
Blame it on me but don't blame it on love  
You could blame it on yourself  
Blame it on me

Don't blame it on love  
Blame it on love  
Don't blame it on love

Don't blame it  
Don't blame it  
(Don't blame it on love)

Don't blame it  
Don't blame it  
(Don't blame it on love)

Don't blame it, don't blame it  
Don't blame it, don't blame it  
Don't blame it, don't blame it  
Don't blame it, don't blame it  
Don't blame it, don't blame it
