

# Everytime I Look at You

Hall & Oates

Every time I look at you  
I can't believe what you did to me  
You had me thinkin' we was all right  
Then you pulled your trick and walked right out on me

You had me thinkin' we was in the sky  
Today I'd like to lay right down and die, [Incomprehensible]

If you've gotta be leavin' me  
Well, that's well, I think it's fine, girl  
You found just what you want  
And it's goodbye, girl, girl, yeah  
Goodbye, girl, no

Every time I see your face  
I can't believe how you lied to me  
You take your laundry out of my place  
And go and live with someone else for free

You had me thinkin' we was in the sky  
Today I'd like to lay right down and die, [Incomprehensible]

If you've gotta be leavin' me  
Well, that's well, I think it's fine, girl  
You found just what you want  
And it's goodbye, girl, girl, yeah  
Goodbye, girl, no

Every time I look at you  
I can't believe what you did to me  
You had me thinkin' we was all right  
Then you pulled your trick and walked right out on me

Every time I see your face  
I can't believe how you lied to me  
So take your laundry out of my place  
And go and live with someone else for free

Baby, it's goodbye  
Baby, it's goodbye  
Baby, it's goodbye  
Baby, it's goodbye

Baby, it's goodbye  
Baby, it's goodbye  
Baby, it's goodbye  
Baby
