

Everytime I Look at You

Hall & Oates

Every time I look at you
I can't believe what you did to me
You had me thinkin' we was all right
Then you pulled your trick and walked right out on me

You had me thinkin' we was in the sky
Today I'd like to lay right down and die, [Incomprehensible]

If you've gotta be leavin' me
Well, that's well, I think it's fine, girl
You found just what you want
And it's goodbye, girl, girl, yeah
Goodbye, girl, no

Every time I see your face
I can't believe how you lied to me
You take your laundry out of my place
And go and live with someone else for free

You had me thinkin' we was in the sky
Today I'd like to lay right down and die, [Incomprehensible]

If you've gotta be leavin' me
Well, that's well, I think it's fine, girl
You found just what you want
And it's goodbye, girl, girl, yeah
Goodbye, girl, no

Every time I look at you
I can't believe what you did to me
You had me thinkin' we was all right
Then you pulled your trick and walked right out on me

Every time I see your face
I can't believe how you lied to me
So take your laundry out of my place
And go and live with someone else for free

Baby, it's goodbye
Baby, it's goodbye
Baby, it's goodbye
Baby, it's goodbye

Baby, it's goodbye
Baby, it's goodbye
Baby, it's goodbye
Baby
