## **Everytime I Look at You**

Hall & Oates

Every time I look at you I can't believe what you did to me You had me thinkin' we was all right Then you pulled your trick and walked right out on me

You had me thinkin' we was in the sky Today I'd like to lay right down and die, [Incomprehensible]

If you've gotta be leavin' me Well, that's well, I think it's fine, girl You found just what you want And it's goodbye, girl, girl, yeah Goodbye, girl, no

Every time I see your face I can't believe how you lied to me You take your laundry out of my place And go and live with someone else for free

You had me thinkin' we was in the sky Today I'd like to lay right down and die, [Incomprehensible]

If you've gotta be leavin' me Well, that's well, I think it's fine, girl You found just what you want And it's goodbye, girl, girl, yeah Goodbye, girl, no

Every time I look at you I can't believe what you did to me You had me thinkin' we was all right Then you pulled your trick and walked right out on me

Every time I see your face I can't believe how you lied to me So take your laundry out of my place And go and live with someone else for free

Baby, it's goodbye Baby
