

# I Want to Know You for a Long Time

Hall & Oates

Laughing's short but loving lasts  
I can't mix the future with the past  
Can I stay close to you?  
I wanna stay close to you

You've got yours and I've got mine  
And what we have is so hard to define  
Just take a look at your lifeline  
Ooh, you've got a lot to shine

And say baby  
I wanna know you for a long, long time  
Ooh, and baby  
I wanna know you for a long, long time

Oh, darling, lady friend  
We'll see each other when it's time to show  
Just for a minute or for a year  
But then again, don't you and I know

The time between our time together  
It doesn't exist, it grows old forever  
Just take a look at your lifeline  
Oh baby, you've got a lot to shine

All I know is that baby  
I wanna know you for a long, long time  
Ooh, and baby  
Wanna know you for a long, long time  
Wanna know, wanna know, wanna know baby

I wanna know baby, I wanna know baby  
Oh, you got a lot to live girl  
So I wanna know you  
(Know ya for a long, long time)  
I wanna know, wanna know, wanna know, baby

So much to live for girl, so much to live for girl  
Oh, so I wanna know you, baby  
Wanna know you for a long, long time  
Wanna know, wanna know, wanna know, baby

I wanna know, I wanna know, I wanna know, I wanna know ya, girl  
I wanna know ya, girl, ooh baby, baby, baby, baby  
Wanna know you for a long, long time  
Wanna know, wanna know, wanna know baby  
Wanna know you girl, wanna know you girl
