Let Love Take Control

Hall & Oates

I'm a soul surviving
Love give me all or nothing
I used to wake in the morning and say
Can I get through another day

Look around, I see everybody's running Trying too hard to make the money But we forgot to the taste of honey Oh babe, can we lose the confusion

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold on me

Little things can get you down Getting caught up in the run around Gotta live in the here and now Oh babe, gotta lose the confusion

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold on me

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold on me

You can't control your destiny, love laughs at all your plans Just let your love show what you need, you know I understand Don't let the weight lay too heavy on you You gotta let it go, hold onto that sweet, sweet soul

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold on me

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold on me

Let love take control Sweet soul got a hold on me Let love take control Sweet soul got a hold on me

Let love take control Sweet soul got a hold on me Let love take control Sweet soul, ooh ooh, let love, ooh ooh, let love
