

# Love in a Dangerous Time

Hall & Oates

In the heart of our country  
There's a killer without a gun  
We're afraid to be no longer free  
To trust a loving one  
So I say a prayer for you

In the heart of the darkness  
There's a killer without a name  
Nowhere to hide  
No mountain side...  
The city's all the same  
So please say a prayer for me

Oh listen people...

Out of the dark silence  
How in the world will we survive  
Love in a dangerous time

In the heart of our children  
Where the simple things are true  
There's so much to learn  
When the world has turned  
Turning on you  
Open eyes show us what to do

Fight our way through open doors  
Blind to what we see before us  
Fools who make the rules  
Commit the crimes...let's lay it on the line

Out of the dark silence  
How in the world will we survive  
Love in a dangerous time

In the heart of the darkness  
In the heart of the country  
In the heart of our lovers  
In the heart of the children

Listen people...  
We can play it cool or play it wise  
When life is on the line
