Something About You

Yeah you've been so close, oh baby In my world always gone with someone Seeing you on your own It's like some light, so bright is turning on See you standing there oh baby Feel a change in the air Everywhere Why didn't I know That you're the one that I've been waiting for

Yeah, there's something about you That I never knew Why didn't I see your smile before Yeah, there's something about you That's leaving me breathless Leading me on

You can see, I can tell oh baby You've got some power over me Use it well Don't know why I'm so sure That you're the love that I've been longing for

Yeah, there's something about you That I never knew Why didn't I see your smile before Yeah, there's something about you That's leaving me breathless Turning me on

Only matters what I feel right now No matter what I've felt before I'm turning to you right now I'm breathless baby, that's all I need to know

Yeah, there's something about you Something about you

Hall & Oates
