

Tell Me What You Want

Hall & Oates

When I look in your eyes I can see there's more than passion there

Something ugly and lovely is tuning in just behind your stare

Yeah, I've seen it before and I think that I'd know it anywhere

So Tell Me girl What You Want

I know you know

Grin and bare it, no no I like what you're wearing

You gotta leave it on all night

As above so below so they say so can we do the Magick [sic] right

Kiss and tell, when I know you so well there's no need to be polite

That's right

So Tell Me girl What You Want

I know you know

Take a position 'cause you know I'm gonna listen to you

Tell me

Ain't no conditions, no there isn't baby ya don't have to sell me

'Cause I love you and I want you tonight

So Tell Me girl What You Want

I know you know.
