

# Time Won't Pass Me By

Hall & Oates

Blue skies for today  
Don't need no more lonely nights  
All the black & blues have made me  
Yeah, they made me see the light  
Down and out but always dreaming  
Gonna dream the love to grow

Chorus:

I think the sun was in my eyes  
This time the time won't pass me by  
Lucky on the second try  
This time the time won't pass me by

Feel so lucky baby  
Just to have another try  
When love comes callin' tears stop falling, hey  
I believe I know the reason why  
Tho' I gave your love away  
You brought it back and doin' that has made me see

Chorus: (repeat)

Just the past I can't replace  
Don't you know I see the future in your face  
Can it be the bad times were what it took to see  
The love we had was true for you  
And good for me

Chorus: (repeat)
