

Haunted

Halloween

Every night inside my head
I feel the presence of the dead
Spirits wander through my mind
Rotted bodies left behind
I try to run, there's no escape
I know my soul is being raped
Their coming from beneath the floor
I'm taken by an evil force

I'm haunted, locked within these doors
I've been possessed taken by force
Images trapped in my mind
Of haunting spirits left behind

Choirs sing into the night, warnings of an evil plight
Evil dwellings where fires burn
Maybe someday you will learn
Once the spirit enters you, there's no way out
Nothing you can do
Sinners wander through my soul, evil spirits want control

I'm haunted, locked within these doors
I've been possessed taken by force
Images trapped in my mind
Of haunting spirits left behind

I'm haunted, locked within these doors
I've been possessed taken by force
Images trapped in my mind
Of haunting spirits left behind
