

Scared to Death

Halloween

I'm gonna show you how they live where I come from
See how they die when they don't give, see how they run
And now you too can feel the pain that they must feel
I showed them all and now tonite you'll know it's real

You'll be scared to death, no time to scream
Just a victim of Halloween
We fade to black, we can't be seen
We're hidden here within your dreams tonite

I've got a secret and I'll show it to you now
If you trust me I'll show you where and when and how
We live our lives on the edge of life and death
Now I must warn you what's ahead may stop your breath

You'll be scared to death, no time to scream
Just a victim of Halloween
We fade to black, we can't be seen
We're hidden here within your dreams tonite

Eerie sights and scary sounds
That fill your head when we're around
Tonight the feeling is in the air
A fear that lingers everywhere

You'll be scared to death, no time to scream
Just a victim of Halloween
We fade to black, we can't be seen
We're hidden here within your dreams tonite

Scared to death, tonite you'll be
Scared to death, tonite you'll be
Scared to death, tonite you'll be
You'll be scared to death tonite!
