

What a Nice Place

Halloween

Hypnotising and sacrificing, playing on our fears
Eerie sound on dark lit grounds, strangers to our ears
In our homes the spirits roam another night to give
Late at night we hear them sing, what a nice place to live

What a nice place, nice place to live!

Energised and mesmerised we play for you today
Down those halls, turn through those doors,
They search to get away
The moon is watching, minutes wait,
Another night to give
Late at night we hear them sing, what a nice place to live!

What a nice place, nice place to live!

Oooh! Penetrate and saturate the darkness of the night
Shrieking cries that mystify added to our plight
Late at night we hear them scream
What a nice place to live!

What a nice place, nice place to live!
