## Hallows Eve

There exists two worlds for you one is false and one is true  
I have lost my shirt my friends paranoid vision, my brain is mildew  
I lost reality long ago now I live in a Horrorshow!

Reality is a tightrope trick once fell, real beasts devour quick  
My fictional beasts are real to me my very thoughts a caustic  
I lost reality long ago now I live in a Horrorshow!

Truth, fiction, one and the same one is real, the other to blame  
I don't care what your bishops say truth shall eat the skull of the lame  
I lost reality long ago now I live in a Horrorshow!
