

## Outer Limits

### Hallows Eve

They're coming, they're soaring they're flying right out of the  
sky  
You're hearing the screams of your comrades and wondering why  
Stare at the skies as they're starting to land You sob and you  
cry with your head in your hands  
You can't imagine what terror they bring  
A world gone mad where bedlam is king

Alien forces from out of the sky  
Conquering all who appear to their eyes  
They come without warning no mercy they show  
Soon you'll be seeing the end of the world  
You can't imagine what terror they bring  
A world gone mad where bedlam is king

Under, your under invasion  
Terror unknown to man  
Under, your under invasion  
Reeks terror across the land

Run for shelter they're moving in  
Soon the world will be seeing the end  
You can't imagine what terror they bring  
A world gone mad where bedlam is king
