

The Righteous Ones

Hallows Eve

Lead us on
With make believe
Your so-called righteousness
We both know
That all you do
Is adding to this mess
Disregard the family
We will make the rules
Soon to rule
With iron hands
Your churches and your schools

Stamping out this
Evil way
Clean in all they do
Claim to be
The righteous ones
Soon to over you
Forget your
Constitutional rights
We are the new law
Soon you will
Be cleansed like us
Without any flaws!

Pulling back the reins
Locking down the chains
Righteousness they say
Will take its toll today!

Ruling all you do
Ruling through and through
Righeousness they say
Will take its toll today!

Fleeing from your
Sinful ways
Soon you will give in
The claim to be
The driving force
To deliver you fom sin
Attention hungry seekers
A movement filled with fools
Living just to rectify
Making their own rules

Keep the rules
Coming now
Soon freedom will be done
Satisfy
Their twisted minds and,
Soon there will be none
If forefathers
Could see us now
They'd gasp in disbelief
Rape the constitution now
And what have you achieved
