

Before You Change Your Mind

Johnny Hallyday

Well you change your mind,
Like you change your dress and
I'm feeling fine but I must confess
I'm like a feather on the wind
And I'm not the same since you blew in
I've been trying hard to catch you
Tried, I tried, I tried
It's like flagging down a hurricane
And asking for a ride
You better hurry up make love to me
Before you change your mind

Well I can't go back even if I could
With every kiss I gotta knock on wook
Tied to your wagon it's a bumpy ride
Baby I love you but I don't know why
I've been trying hard to catch you
Tried, I tried, I tried
Like a cat on wheels hanging on with all my might
You better hurry up make love to me
Before you change your mind

I've been staying up late waiting for your call
Well I'd run to you in no time at all
Can't nail you down, is these something wrong?
Well I rush right in but you're already gone
I've been trying hard to cath you
Tried, I tried, I tried
Won't you treat me like you used to do
Before you say goodnight
Hurry up make love to me
Before you change your mind
