

## Anything For You

Halo Friendlies

Wish I knew how to be the color blue  
cause it hangs around when no one else can comfort you  
if you want to be alone then just say so  
'cause the power is yours because you took my heart  
and you have my soul and there's  
something special something great in this exchange  
and do you know that

I would do anything for you  
I would do anything for you  
you know I would yeah  
you know I would yeah  
you know I would yeah  
I would do it all for you

Summertime burned burned a hole inside your heart  
and winter's bite froze the feelings deep inside  
but I know there's something there that you can't hide  
it sparkles brightly forth,  
expands the sky and it blows my mind  
and do you feel it?  
do you feel the way I do?  
and do you know that

When I first knew that love could be true  
it raised me up from being sick and blue  
and you'll find, you'll see,  
you're fine, you'll change your mind,  
when life gets you down I'll be right by your side cause
