

Look Around

Halo Friendlies

Look around what you see is what you get in this life
4am city slumber city sighs (hear the cries)
and look around what I see is what I got
wasted years wasted money wasted mind
(is this mine)

And I look around
and I see the sight
and I hear your voice
and you tell me it's alright

Earned it all building castles in the sand
blew it all with problems that I had
chasing butterflies like they carried my soul
hunger pangs fill this empty space

A stranger's stare is stranger than friction
on a slippery slope of life's addiction
tv gods won't help you when you're broke
hell's angels love to see you broken
