

# Stonefruit

Halou

Dearheart  
Take a look at you  
I know how it feels  
Branches full of fruit

Life streaks  
And surges all in green  
The bounty of the rain  
The bounty of the spring

Dearheart  
You can't keep them all  
I wait with eyes closed  
I'll lighten your load

Truth hurts  
Remember this:  
We are pooling our faith  
(You said it)

Truth hurts  
Remember this:  
We are pooling our faith  
(You said it)

Asking for my basketful  
Asking for my basketful  
Asking for my basketful  
Asking for my basketful

Shake loose  
All your garnet jewels  
Whatever sustains me  
Gifts and pampers you

Trees drop  
Plums in my open mouth  
I wait with eyes closed  
Paradise my own

Truth hurts  
Remember this:  
We are pooling our faith  
(You said it)

Truth hurts  
Hold onto this:  
We are pooling our faith  
(You said it)

Juice bursts  
Don't let it drip  
We are pooling our faith  
(You said it)

Truth hurts  
Hold onto this:

We are pooling our faith  
(You said it)
