We appeal to your basic nature  
Your basic nature, honey  
Chew up the harder facts for you  
To make them easy to consume

We appeal to your basic nature  
Your basic nature, don't we  
Do we appeal to your basic nature  
Your basic nature, honey

You won't have to think too hard  
You won't have to dig too far

With your attention-span destroyed  
Segments of six second factoids

Sanitize the truth for you  
You won't have to think too hard  
Sanitize the truth for you  
You won't have to dig too far
