

# Demonized

HammerFall

So here I am once more  
The devil in disguise  
You've seen me before  
I stream the earth alone  
Across the seven seas  
To settle the score  
I stand behind  
I am the dark reflection  
Last thing you'll see when you'll die

Demonized, possessed by the Devil  
I'm in disguise, a black hearted soul screaming  
Out the lies, welcome to enter my final mask  
A sinister snake in the grass

So many times before  
I've seen the world go down  
By the touch of my hand  
So if you wanna fly  
Then fly across the sky  
To find the Promised Land  
Your wings will burn  
There's nothing left to us  
Paradise lost to my crown  
You spread your wings  
Melting in the sunlight  
Fear of the future has doubt

Demonized, possessed by the Devil  
I'm in disguise, a black hearted soul screaming  
Out the lies, welcome to enter my final mask  
A sinister snake in the grass

I'm strung out, I am the end that you breathe  
I will make you choke, addicted, I feed on your needs

Demonized, possessed by the Devil  
I'm in disguise, a black hearted soul screaming  
Out the lies, welcome to enter my final mask  
A sinister snake in the grass  
(Demonized) Possessed by the Devil  
(I'm in disguise) A black hearted soul screaming  
(Out the lies) Welcome to enter my final mask  
A sinister snake in the grass
