

# One of a Kind

HammerFall

Rising forces, thunder in the east  
No fearless warrior could subdue the beast  
No gallant man around could stand and hold his ground

Days passed by and weeks turned into years  
Every drip of hope became a sea of hours  
Somewhere in the dark, a light or just a spark

Brothers in arms fighting one and for all  
Fearless and wild we stand tall, one of a kind  
No turning back, brothers fight or fall  
Standing together, we fight, one of a kind

Years of darkness all torn by fate's hand  
A nation cursed, once glorious and grand  
From the ashes we will rise, like a Phoenix to the skies

Brothers in arms fighting one and for all  
Fearless and wild we stand tall, one of a kind  
No turning back, brothers fight or fall  
Standing together, we fight, one of a kind

Come take my hand, don't leave me here all alone  
Come make a stand, don't let us fade away, fade away

1666 - We stood in the valley of death  
Steel in our hands, the final command  
Mighty warriors - mount up don't stare at the ground  
Hold your heads high, resist and defy  
Fighting, defending, we're screaming, avenging you all

We're standing all for one for all  
One voice we're one of a kind, we are  
Never look back, never surrender

We're fighting all for one for all  
One heart, we're one of a kind, we are  
Cause we are here and we are fighting

Brothers in arms fighting one and for all  
Fearless and wild we stand tall, one of a kind  
No turning back, brothers fight or fall  
Standing together, we fight, one of a kind

Fighting, defending, we're screaming, avenging you all
