

# Punish and Enslave

HammerFall

It's midnight, the clock strikes twelve  
When the beasts come out and play  
The headlines made it clear  
Judgement day is near

They're crawling down the street  
Sinking their razor teeth  
They're knocking on every door  
Now the steel begins to glow

They're vapourizing the earth, no mercy  
Into the battle they thrust  
With power and lust

Oh-oh-oh...  
Punish and enslave  
Oh-oh-oh...  
Punish and enslave

There's something, a single spark  
Out there in the dark  
The metal is shining bright  
Brings back hope and light

Bumber-to-bumber he reins the wasteland  
Turning their steel into dust, he will never rust

Oh-oh-oh...  
Punish and enslave  
Oh-oh-oh...  
Punish and enslave

All hail the chosen one - fight proud, don't touch the sun  
Come join our steel parade - together in the last crusade  
All drop the hammers down - burn out, reclaim the crown  
Speed demons never turn - at speed of light we ride, running flat-  
out let's crash and burn

They're vapourizing the earth, no mercy  
Into the battle they thrust  
Bumber-to-bumber he reins the wasteland  
Turning their steel into dust, he will never rust

Oh-oh-oh...  
Punish and enslave  
Oh-oh-oh...  
Punish and enslave
