

Charge into the vein  
Like a needle for the pain  
Thunderbolts clashing down  
A new sound across the land

Force we are the pawns  
Conveying a new dawn  
Hear the screams, feel the force  
In a symphony of steel

Across the universe  
Embracing all mankind

There's something in our hearts worth fighting for  
Some Secrets better left untold  
And when the time has come for us to die  
We'll take the Secrets to the grave

No, here they stand  
The resistance, hand in hand  
When you think we are gone  
We will rise a brand new dawn

Across the universe  
Embracing all mankind

There's something in our hearts worth fighting for  
Some Secrets better left untold  
And when the time has come for us to die  
We'll take the Secrets to the grave

Charge, hear the screams  
It's the fear of the unseen  
Force, no remorse  
It's a symphony of steel

Across the universe  
It all remains the same  
You can't break a metal heart  
And it's far too wild to tame

There's something in our hearts worth fighting for  
Some Secrets better left untold  
And when the time has come for us to die  
We'll take the Secrets to the grave
